

# FACTS ABOUT EDIBLES

## THC Levels

- Amount of THC levels are steadily increasing 
- In the 1980's, THC levels were around 4% and as of 2015, the THC levels ranged from 20-30%
- Marijuana concentrates are used in edibles, and THC levels can be even higher
- Marijuana concentrates contain levels of THC that could range from 40% to 80%

## Serving Size

1/4 of this cookie is considered a serving size due to THC levels

## Dangerous Results

- Longer to digest so more is consumed to feel the effects faster 
- Higher THC levels may mean a greater risk for addiction if one is regularly exposing themselves to high doses
- Since it is hard to detect whether it is an edible, people have consumed without knowing it is infused with marijuana
